University Innovation Hub Program (UIHP)

The University Innovation Hub Program (UIHP), a flagship initiative of the Bangladesh Hi-Tech Park Authority (BHTPA) and funded by the World Bank under the Digital Entrepreneurship and Innovation Ecosystem Development (DEIED) project, is shaping the future of student entrepreneurship in Bangladesh by integrating global best practices into university-led innovation hubs.

Through its immersive mentorship journey, UIHP is empowering 3,000 students across universities—guiding them from idea validation to product commercialization. To date, the program has provided grants of over 1 crore taka to student-led ventures, while its graduates have already secured more than 50 lacs in external investments—proving that Bangladesh's next generation of innovators are ready to compete on the global stage.
